Forecast for Saturday 19 Nov 2022

Weather: A dry and bright day with sunny spells. Tending to cloud over later in the afternoon and lowering cloud making for a dull evening with some rain spreading east from early evening, turning heavier at times.

Chance of cloud-free hill tops above 700m: 90%, early low cloud will lift and clear, patches remaining on higher tops. Falling to 40% by early evening as rain approaches.

Low cloud and visibility: Patches around hill tops early in the day above 600m. Low cloud will tend to form later in the afternoon and lower over the hill tops, with layers of scattered low cloud above 500m. Visibility will be very good for the majority of the day falling moderate or poor in the evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Winds will ease and turn southeasterly later in the day becoming quite strong during Saturday afternoon, summit gales likely. Feeling quite cold on the tops particularly in the evening as the rain arrives too.

Forecast for Sunday 20 Nov 2022

Weather: Overnight rain will clear early in the morning but turning into a showery morning but a few brighter spells outwith showers. Showers may turn wintry on the highest tops with some sleet. Significant wind chill in showers and strong westerly winds.

Maximum wind: West or southwesterly winds 30-35 mph with gusts 40-45mph in the morning.

Chance of cloud-free hill tops above 700m: 60% at daybreak, improving to 70%, scattered low cloud associated with showers.

Low cloud and visibility: Early cloud around the tops will lift and clear but low cloud will form again around heavier or showers during the day with scattered layers above 600m. Visibility will turn poor for a time in heavy or sleety showers.

Temperature: **Valleys:** Plus 2 rising to 8 Celsius.
At 700m: Plus 1 Celsius.
Freezing level: 800-1000m.
